

Compressed Air & Vacuum Solutions

Medical/Lab Air & Vacuum Systems

Our skid packages minimize installation costs and maximize the availability of floor space. Installation is quick and easy, with easy access for service and maintenance.

- Scroll Compressors
- Rotary Claw Vacuum
- Lubricated & Oil-Free Rotary Vane Vacuum
- Water Sealed Liquid Ring Vacuum

Standard systems: **simplex, duplex, triplex, and quad configurations.**

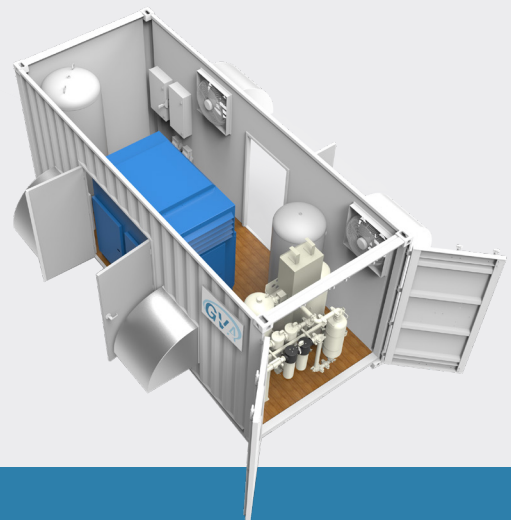

Custom packages are available.

Mobile Engineered Solutions

GlobalVac & Air offers containerized equipment rooms designed to house any type of equipment you need—whether it's compressed air systems, vacuum pumps, filtration units, or nitrogen/oxygen generators.

- Fully self-contained
- Portable
- Weatherproof
- Can operate in extreme conditions (-40°F to 115°F)
- Easy maintenance
- Quick installation
- Can be built with **any equipment/brand**

Air Treatment

Our air dryers are compact, lightweight, and feature a small footprint for easy installation. With corrosion-resistant aluminum construction, reliable electronic controls, and versatile mounting options

- Modular Desiccant Air Dryers

Concoa Pipeline

CONCOA pipeline components support centralized gas delivery across cryogenic, industrial, and laboratory applications.

- Cryowiz
- Vacuum Jacketed Pipe
- Manifolds
- Regulators
- and more...

Innovative Air & Vacuum Solutions

From medical vacuum systems to lab air compressors, GlobalVac & Air offers efficient, customizable solutions for hospitals, labs, and factories.

NFPA 99 Compliant

Our engineered medical solutions are NFPA 99 compliant, so you can trust that you are getting a high quality, reliable system.

Custom Solutions

Have a unique challenge or need? Work with our engineers to come up with a solutions for your specific application.

Trusted Industry Experts

When it comes to your medical vacuum projects, it's important to work with trusted industry partners. With our team of experts you'll receive a high quality system from one reliable source.
